

UNO Game - Class Diagram

Java Implementation

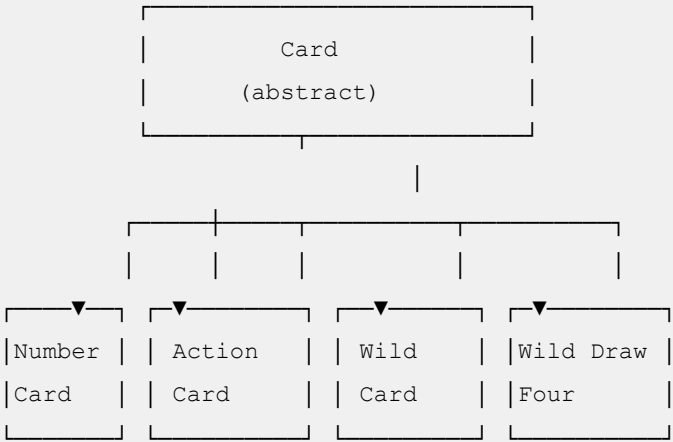

Enumerations

```
<<abstract>>
Card

# color: Color
# type: CardType

+ getColor(): Color
+ getType(): CardType
+ setColor(Color): void
+ canPlay(Card): boolean <<abstract>>
+ applyEffect(Game): void <<abstract>>
+ toString(): String
```

```
NumberCard

- number: int

+ getNumber(): int
+ canPlay(Card): boolean
+ applyEffect(Game): void
```

```
ActionCard

- action: ActionType

+ getAction(): ActionType
+ canPlay(Card): boolean
+ applyEffect(Game): void
```

```
WildCard

+ canPlay(Card): boolean
+ applyEffect(Game): void
```

```
WildDrawFour

+ canPlay(Card): boolean
+ applyEffect(Game): void
```
